UCI's Purchasing and Accounting Departments create systems and training to help users follow policies in regards to purchasing goods, services, travel or entertainment. As a public entity, UCI requires certain protocols and approvals are in place for all purchase transactions. Using personal funds to circumvent protocols to acquire goods and services is not acceptable unless it is a business emergency. The decision tree on the following page is designed to be an at-a-glance reference tool to guide users to the correct transaction. Please review the chart below for appropriate training and resources.
